OFFICE Of the Bd of Rev

STATION Chipawa

Ms No. 756

Dated 7-8-33

From

E. M. Gawne, Esq, I.C.S.,

Collector of South Kanara.

The Secretary to the Board

Land Revenue & Settlement,

Madras.

Sir,

Establishment--Temporary--2 Draftsmen--Retention for 1933-34--Proposed

vide G.O. 1579 Rev 12-8-27 abp 19 & B 2281 (Cn) 12-8-27 Lr 25-7 dt 20 Mins (T) 17-3-32

The two temporary draftsmen who were first entertained in September 1927 have been kept on under sanction by Government annually. Their retention for 1932--33 was sanctioned in G. O. 99-M.S. dated 12.3.32.

2 The sub division work in the district has not diminished. The total number of sub divisions newly sanctioned and received for scrutiny by the Inspecting Tahsildar during the year ending on 31.1.33 was 13395 as against 9663 and 12441 in the two preceding years. The balance of subdivisions that remained for scrutiny and plotting at the end of the above year, numbers 11036. According to the outturn prescribed by the Director of Land Records the two draftsmen and the permanent one will require about 7½ months to clear the above balance if they are employed exclusively on the work of scrutiny and plotting alone. But this will be reinforced by fresh sub divisions to be sanctioned and sent up for scrutiny and plotting in the meantime. There are besides, other items of work to be attended to by them. They are (1) scrutiny of sketches with comparative area lists concerned in cases of errata to the Settlement registers (2) scrutiny of sketches of post settlement fields wanting in independent

plottable data which are now being supplied (3) carrying out the necessary changes in the Taluk copies of the F.M. Books relating to (1) and (2) (4) carrying out corrections in the re-survey F.M. Books of Kasaragod Taluk and of villages re-surveyed in Mangalore and Puttur Taluks as per errata lists issued by the Survey office, Madras (5) plotting the new fields in the maintenance set maps of villages and (6) preparing copies of plans with index as per requisitions from the Vernacular and Correspondence sections. These items take a considerable time of the draftsmen. Thus the retention of the two draftsmen for the ensuing official year will be absolutely necessary in the interest of revenue records and registration. They will not be relieved of any of their work by the Branch Settlement Office that has been opened in Mangalore. The cost required has been provided for in the Budget estimate for that year under "5 (a) L.R.--charges of administration--Taluk establishment". I request therefore that the Government may be addressed to sanction the continuance of the temporary establishment for 1933-34.

Your obedient servant,

Establishment - temporary -
South Kansas - two draftsmen -
Retention during 1933-34 - Proposed
